Skills

Back-end: Python (Django), Java (Spring), C/C++
Front-end: Angular, JavaScript (Vue.js, React), HTML/CSS, Bootstrap
Mobile: Kotlin (Android)
Databases: PostgreSQL, SQLite, Redis
DevOps & tools: Docker, Kubernetes, Azure, Git
Security: Keycloak, WebAuthn

Languages

- French — C2
- English — C1
- Dutch — B2

Education

Bachelor's in Computer Science – Application Development — *2023 – present*
Haute École Bruxelles-Brabant (HE2B ESI)
- Key courses: web development (Django, Spring, Vue.js), databases (PostgreSQL), software engineering, security, systems and networks.

Preparatory Year – Advanced Mathematics — *2020 - 2021*
Institut Saint-Louis, Brussels
- Advanced mathematics (calculus, algebra) in preparation for higher scientific studies.

High School Diploma – Economics & Languages — *2017 - 2020*
Institut des Sœurs de Notre-Dame, Brussels

Experience

Coding Instructor — Logiscool — *2026 – present*
Uccle, Brussels · Coding classes for ages 8-18
- Programming workshops (block-based coding, Python) for groups of young learners.
- Clear explanations and one-on-one support tailored to each level.

Computer Science Tutor — HE2B ESI — *2024 - 2025*
Peer tutoring for first-year students
- Support in algorithms and programming (Python, Java) for first-year students.
- Explanations adapted to each student's level and exam preparation.

Projects

- Hospital Security — client/server system for end-to-end encrypted medical records.
- Odoo Interview Feedback — Odoo 18 module for job interview feedback, with a Django website.
- Mètre-moi au régime — JavaFX application for tracking diet and weight.

Interests

Raspberry Pi (4 & 5) and robotics · Piano
